DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 66-68, drawn to compounds of formula XIV, classified in class 540, subclass 6+.
 - II. Claims 69-71, drawn to compounds of formula XXI, classified in class 540, subclass 6+.
 - III. Claims 72-74, drawn to compounds of formula XXIII, classified in class 540, subclass 6+.
 - IV. Claims 75-83, drawn to compounds of formula XXVI, classified in class 540, subclass 6+.
 - V. Claims 84-94, drawn to compounds of formulae 104 or 103, classified in class 540, subclass 6+.
 - VI. Claims 95-99, drawn to compounds of formula 102, classified in class 540, subclass 6+.
 - VII. Claims 100-104, drawn to compounds of formula 101, classified in class 552, subclass 612+.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I-VII are unrelated because they are drawn to structurally different steroid derivatives.

3. Because these inventions are distinct for the reasons given above and the search required for one Group is not required for the other Groups, restriction for examination purposes as indicated is proper.

4. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for search purposes, even though this requirement is traversed.

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

5. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
